The first one (**0**) is an example.

**better** - dark - **fantastic** - funny - popcorn - prefer - rewind - second - screen - whole

Which is (**0**) **better**, seeing a movie at home, or going to a cinema complex? I prefer watching a movie on the big screen. I can understand why some people (**43**)

prefer **seeing** a movie at home – there are a number of reasons. First, it is much cheaper. The (**44**) **whole** family can watch a film for less than the price of a cinema ticket for one person. (**45**) **better**, you can stop and start the film whenever you want. You don't have to keep to the timetable of the cinema. You can (**46**) **rewind** if you missed something, and you can watch the movie with subtitles if you wish. But for me, going out to see a movie is a (**47**) **fantastic** experience. I like sitting in a (**48**) **dark** cinema with a big crowd of people around me. I also like hearing everyone's reactions when something exciting or (**49**) **funny** happens. The first one (0) is an example.

~~have looked at - live for many more - not enough time - of the summer - soda and cake - the same way - to look after - why we get~~

Why do we need to brush our teeth twice a day? It's because of our modern lives. Ancient humans lived without toothbrushes, but scientists (0) **have looked at** old bones showing that most people had healthy teeth. Why were these people different to modern humans? There are two reasons. Firstly, they didn't eat much sugar, just some fruit at the end (51)

the same way and perhaps a little honey. We are supposed to eat nuts, fish, roots and fruit, not chocolate bars, (52) **soda and cake**. Also, ancient humans didn't live very long, so there was (53) **live for many more** for their teeth to have problems. Most modern humans live to be older than 70. This is (54) **why we get** dental problems, we frequently eat sugary foods and we (55) **not enough time** years than ancient humans. A modern lifestyle is very comfortable, but we have (56) **to look after** our teeth.
